

FOLLOW THE RISE OF

GIULIAN SORVILLO

2025 EDITION

BIOGRAPHY

Giulian Sorvillo is a passionate, talented, and determined young driver who stands out for his exceptional speed and natural racing instinct. He combines explosive talent with a remarkably mature driving intuition, which has allowed him to distinguish himself early on as a driver with a bright future in motorsport.

FAST LEARNING

From his first seasons, Giulian set a course that few young people can match.

- Champion in the mini class
- Runner-up in the junior category
- Champion in the senior class (in his rookie year and as the youngest rider on the grid)

But it's not just the results that set him apart. It's especially the way he develops that makes him such a remarkable talent.

Giulian is known for:

- His ability to adapt quickly
- His strong racing intelligence
- His mental resilience under pressure
- His constant drive to improve himself
- His will to push boundaries

These qualities place Giulian in a select group of young riders with remarkable development potential.

NOTICED AT THE HIGHEST LEVEL

From his very first seasons, Giulian set a trajectory that few young drivers can match. His impressive achievements have not gone unnoticed. His talent is now recognized both within and beyond the karting world.

A standout moment in his journey:

- Personal invitation from Thibaut Courtois
- Formula 4 test at MotorLand Aragón (Spain)
- The invitation came after an exceptionally strong performance on Courtois' racing simulator

This invitation was an important confirmation of:

- His speed
- His technical mastery
- His flawless racing instinct
- His ability to perform both virtually and on the track

DIGITAL

Even in the digital world, Giulian Sorvillo ranks among the best of his generation, performing at the highest level in sim racing. With a high iRating on iRacing, he competes in the A-class, where professional drivers also participate.

He has taken part in races featuring big names such as Max Verstappen and Kimi Antonelli. In one of those races, he even finished ahead of Antonelli, highlighting his skill and consistency.

Giulian Sorvillo is a rising talent, ready to take the next step— on the track, in the simulator, and across the world of motorsport.

CAREER

Year after year, Giulian confirms his talent with titles, podium finishes, and international selections. This timeline tells the story of a career that clearly moves in one direction: forward.

2020 - 2021

The Beginning of a Young Talent

Giulian discovered karting and immediately stood out thanks to his instinct and natural speed. The purchase of his first outdoor kart marked the start of his competitive journey.

2022

Giulian achieved his first major victory in an outstanding debut year.

Highlights

- Champion of the Mini Class (Benelux)
- Participation in the Karting World Championship in Le Mans

The move up to the junior category confirmed his development, focus, and maturity.

2023

Highlights

- Runner-up in the Junior Class
- Voted "Kid Star of the Year"
- Participation in the Karting World Championship in Portimão
- Victory in the 3 Hours of Spa (sim race) – youngest participant ever

2025

Highlights

- Champion Senior Class (rookie year)
- Simulator test invitation at TC Racing and Formula 4 test at MotorLand Aragón
- Pro Simrace Zandvoort:
 - » Finale at Silverstone in an F1 car
 - » 1st place + new track record
- 3rd place in the NitroSimRacing 24H of Daytona (LMP2 class)
 - » Fastest lap of the race

A milestone year in which Giulian, the youngest participant, won his first senior title and broke through internationally.

Giulian Sorvillo verdient kampioen in Mini-Parilla: "Een jaar geleden had niemand dit verwacht"

Uitgegeven door Bas Kaligis • 25 november 2022 02:42

Genk – **Giulian Sorvillo** heeft zich afgelopen weekend op Karting Genk verzekerd van het kampioenschap in de Mini-Parilla 60 cc van de GK4 Kart Series. De 11-jarige kartploot uit het Belgische Harelbeke had aan een vierde plaats in de finale voldoende voor het veiligstellen van het kampioenschap. In de haas daarvoor had de rijder van het PDB Racing Team van Peter en Nick de Bruijn met een derde en een tweede plaats ook al goede punten gescoord. Zo eindigde een ijssterk seizoen met vele overwinningen in een verdiende titel voor de enthousiaste en beloftevolle racer. En dat moest gevierd worden!

Met een grote lach liep Giulian door de paddock en hij mocht meerdere flessen champagne leegspuiten. Daarbij

Clean sweep en mooie zege voor karttalent Giulian Sorvillo in Mariembourg: "Weer een podium!"

Uitgegeven door Bas Kaligis • 11 juli 2025 03:20

MARIEMBOURG – Met een clean sweep liet Giulian Sorvillo zaterdag zien waarom hij tot de absolute top behoort in de GK4 Kart Series. Het dertienjarige karttalent uit Heule won tijdens de vierde ronde alles wat er te winnen viel in de IAME X30 Senioren-klasse: poleposition, beide heats én de finale. Een perfecte dag op het Belgische circuit waar hij eerder dit seizoen ook al gewonnen had.

"Weer een podium!", jubelde Giulian na zijn dominante optreden. Met zijn overwinning staat de jonge Belg aan de leiding in het kampioenschap, maar alles ligt open voor de snelle rijder, die in 2022 al kampioen werd bij de Minis!

Wat goed is, komt snel: Giulian Sorvillo (10) wint openingsrace GK4 Kart Series

Uitgegeven door Bart • 13 maart 2022 20:50

Genk – Giulian Sorvillo is een naam om te onthouden. Het 10-jarige karttalent uit Harelbeke in België liet tijdens openingswedstrijd van de GK4 Kart Series in de Mini-Parilla klasse alle concurrenten achter zich. Giulian kart pas ruim een jaar maar zijn snelheid was het Nederlandse PdB Racing Team al eerder opgevallen. In de eerste race voor zijn nieuwe team sto hij direct op de hoogste trede van het podium.

Na de winst in de finale was Giulian door het dolle heen. "Het is de eerste keer dat ik een kartrace win en ik ben er

Giulian Sorvillo wint op Raceway Venray en komt juichend over de finish: "Ik was gewoon ontzettend blij"

Uitgegeven door Frank Korsel • 4 mei 2022 00:12

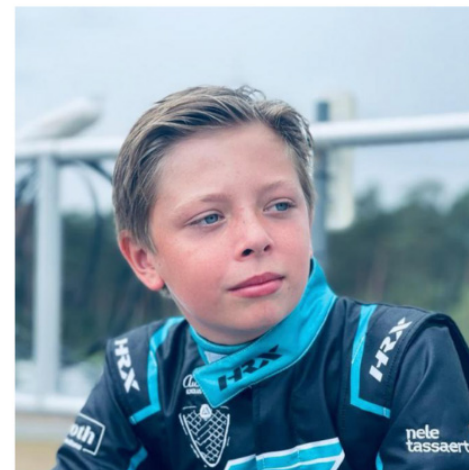

Giulian Sorvillo liet de concurrentie afgelopen weekend tijdens de derde ronde van de GK4 Kart Series met verbazing achter. Het 10-jarige karttalent uit Harelbeke in België hield op Raceway Venray in de Mini-Parilla klasse alles en iedereen achter zich. Hij won namelijk alles wat er te winnen viel. Voor de jonge Belg was het een weekend met een gouden randje.

Juichend kwam Giulian over de eindstreep heen in de laatste race. "Het voelt zo ontzettend goed om als eerste over de streep te komen. Ik hoop al heel lang met iedereen naar de top te komen en nu heb ik het gedaan!"

Kartbelofte Giulian Sorvillo pakt overwinning na spectaculaire finale in Mariembourg: "Uitdaging"

Uitgegeven door Bas Kaligis • 13 maart 2025 03:04

MARIEMBOURG – Met een indrukwekkende vertoning heeft Giulian Sorvillo zondag de overwinning gepakt in de Rotax Max Junioren-klasse. De dertienjarige coureur uit Heule bleef ondanks een tumultueuze slotfase overeind en won de eerste ronde van de GK4 Kart Series op het circuit van Mariembourg.

"Ik ben ultraaard blij met mijn overwinning, maar het was wel een spannende race", zei Giulian met een glimlach. De dag begon met de nodige uitdagingen voor de jonge Vlaamse. "We hadden nog nooit met een Rotax in Mariembourg gereden. Dus dat was wel een uitdaging."

2025

A breakthrough year with everything moving at full speed

INVITATION

This summer, Giulian was invited to Madrid to the team of Thibaut Courtois for a professional simulator test.

The goal: to see if his karting talent could translate to the work required in higher racing categories.

RESULTS

The test went exceptionally well. In a short time, Giulian set the fastest lap on the chosen circuit, immediately catching the attention of both the team principal and the chief engineer.

They were impressed by his speed, his instinct, and his ability to quickly learn new racing lines and braking points.

NEXT CHAPTER

But one crucial question remained:
would these performances also translate to the real track?

To find out, Giulian was invited to an exclusive Formula 4 test at MotorLand Aragón—one of the most technical and demanding circuits in Spain.

FORMULA 4

Two Days That Changed Everything

At 14 years old, Giulian got to step into a Formula 4 car for the first time—a moment every young racer dreams of. It became two unforgettable days at MotorLand Aragón.

CONDITIONS

Day 1: bright sunshine
Day 2: rain and a wet, slippery track

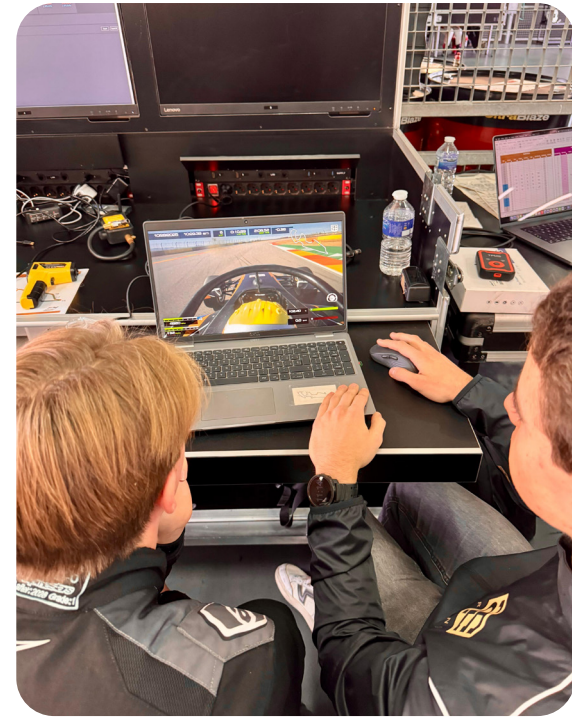

Two extremes. Two completely different challenges, each testing his skills in unique ways. And yet, Giulian remained remarkably calm, focused, and determined throughout.

STRONG FIRST IMPRESSION

For someone driving their very first laps in a Formula 4 car, Giulian immediately posted exceptionally strong times.

He set lap times that were instantly among the top five of the day, alongside drivers who had already competed for a full season at this level.

RACING INTELLIGENCE

What stood out most was how precisely he felt the car—every reaction, every slip, and every change in grip.

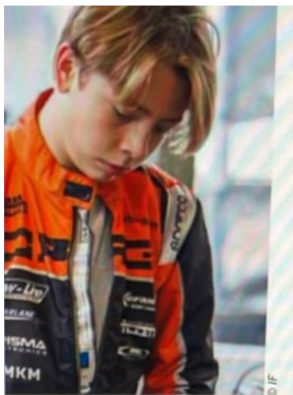

He was able to communicate this clearly and effectively with the engineer, something exceptional for a driver of his age.

This combination of speed, feel, and mental maturity confirmed what the team in Madrid had already suspected:

Giulian has the talent and mental strength to progress to the higher levels of racing.

**“WHERE FOCUS
MEETS FEARLESS”**

Giulian Sorvillo (14)

“Ik mocht al gaan testen bij het team van Thibaut Courtois”

Het begon als een verjaardagscadeautje – eens gaan karten tijdens een vakantie op Fuertaventura – maar ondertussen is karten voor Giulian Sorvillo bittere ernst geworden. Op zijn 14de werd hij al Beneluxkampioen bij de seniors. “Tegen alle verwachtingen in”, klinkt het. “Want vorig jaar zat ik nog bij de juniors.” De jonge Kortrijkzaan, die vooral in Noord-Frankrijk traint, wekt aanzien in het wereldje. “Onlangs mocht ik in Spanje testen gaan uitvoeren bij het F4-team van Thibaut Courtois. Bij de ‘simtest’ heb ik er alle tijden verbroken. En ook de test op het circuit ging heel goed.” De stap naar F4 lijkt dan ook een logisch vervolg van zijn carrière, maar Giulian moet nog een jaartje geduld hebben. “Pas dan mag ik racen in die klasse.” Het ultieme doel? “Formule 1. Maar dat kost heel veel geld, dus we hopen op sponsors. Plan B is Formule 2 en GT3. Daar zijn wat meer zitjes in vrij”, aldus de jongeman, die zich spiegelt aan Max Verstappen.

Giulian is een opkomend talent in de kartsport: “Ieder weekend zijn we met gezin op een circuit”

Thibaut Courtois wild van racetalent Giulian (14) uit Kortrijk: “Niemand begrijpt hoe hij zó snel kan zijn”

Giulian Sorvillo, die afgelopen zomer mocht testen bij Thibaut Courtois, is op z’n veertiende (!) Beneluxkampioen karting in seniorenklasse: “Rijden voelde meteen heel natuurlijk”

That Thibaut Courtois took the time, amid his busy schedule, to stop by and meet me was a special moment.”

– Giulian

STRONG TOGETHER

Big Steps, Big Fire, Supported by a Strong Family

Giulian stands on the brink of major steps forward. The coming years will be decisive for his racing career, and he feels the intensity of his drive burning within him. His motivation is unmatched, his ambition clear, and his enthusiasm almost tangible. He wants to move forward. He wants to grow. He wants to get the best out of himself.

What makes his journey truly special is the strong foundation he can rely on: his family.

GIULIAN'S FAMILY

His brother

who joins him to every race weekend and supports him as a mechanic.

His dad

who keeps everything on track and, together with his sons, ensures everything runs perfectly.

His mom

always present, providing stability, care, and unconditional support.

Together, they form a strong, warm, and dedicated foundation on which Giulian can continue to grow every day.

As a family, we fully believe in this journey and in the steps he is now taking within the environment of Thibaut Courtois' TC Racing.

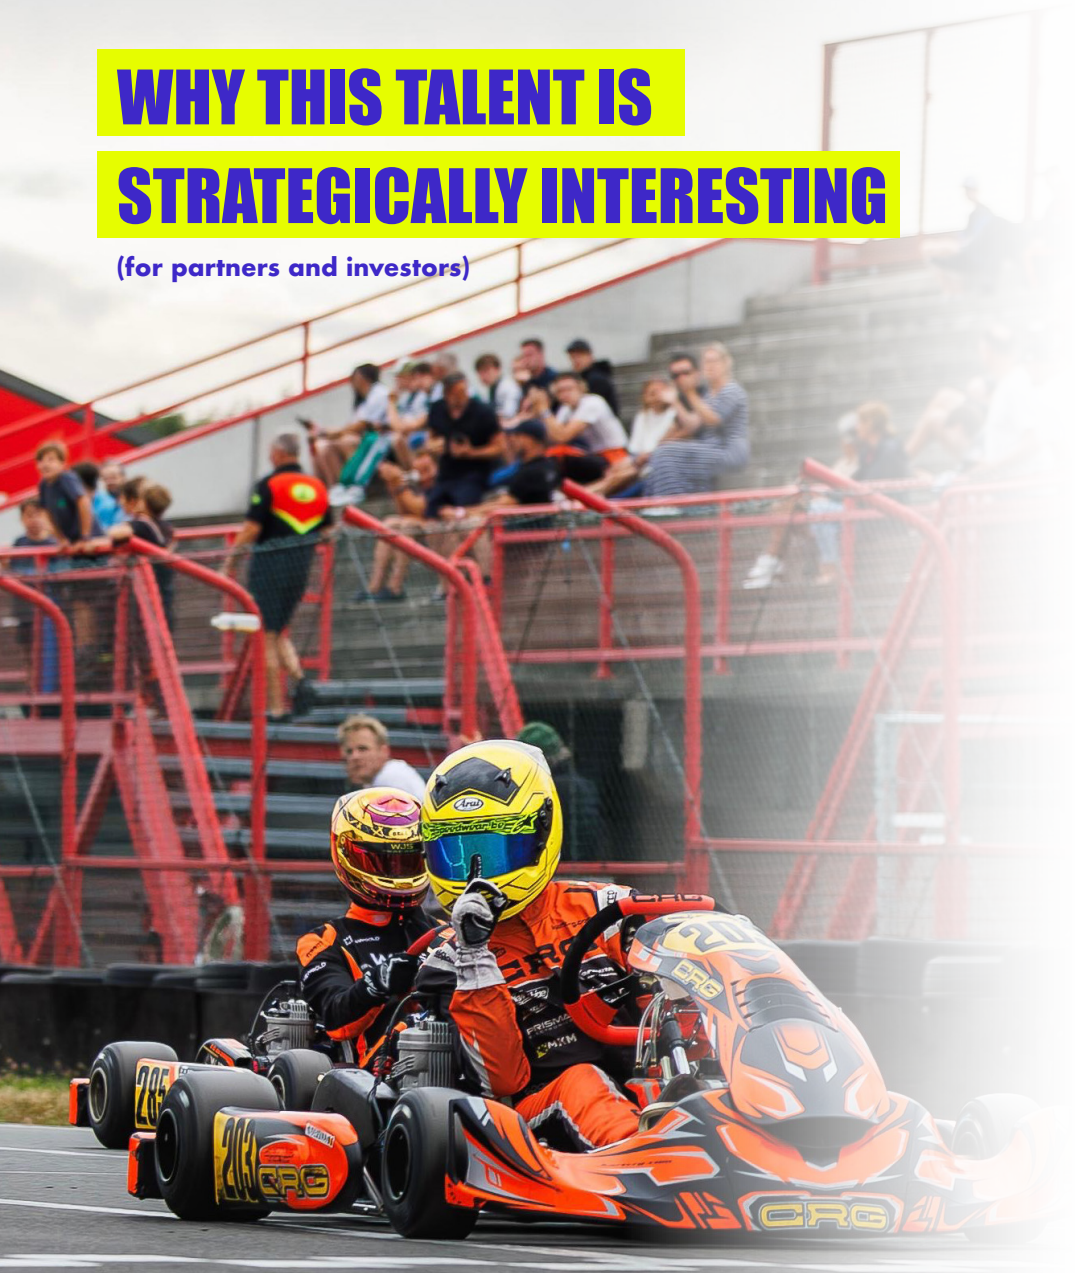

Talent deserves opportunities, and those opportunities grow when people are willing to join that journey.

We welcome anyone who believes in Giulian, recognizes his potential, and wants to support his growth and future.

WHY THIS TALENT IS STRATEGICALLY INTERESTING

(for partners and investors)

01

Selected, Not Bought

In a sport where access is typically budget-driven, Giulian was invited for a professional test with TC Racing at MotorLand, without any financial contribution.

This type of selection only occurs when a team clearly identifies sporting potential and is willing to invest its own resources. This is not a commercial entry, but a purely sporting decision.

02

Proven performance with limited resources

Giulian consistently performs against drivers with significantly larger budgets. This indicates a high performance-to-cost ratio – a crucial indicator of sustainable talent in competitive, capital-intensive environments.

03

External validation by professional structures

The selection by TC Racing and the ongoing negotiations with European top-level karting confirm that this trajectory is externally validated by organizations with proven experience at the highest levels of motorsport.

04

Positioning within a top-level motorsport network

The involvement of TC Racing, connected to international elite motorsport, provides credibility, network access, and reputational protection. This is structural validation, not a marketing construct.

05

Phased development model (risk management)

The pathway is deliberately built around:

- European top-level karting
- intensive simulator and data integration within a formula structure
- clear evaluation and decision-making milestones

This increases sporting predictability and limits downside risk for partners.

06

Growing alongside an expanding professional structure

TC Racing itself is in a phase of strong development and scaling, with clear ambitions toward Formula 3 and Formula 2.

Giulian is therefore developing within a structure that is also moving forward, significantly increasing the strategic value of early involvement.

07

Perfect timing before the capital-intensive phase

Giulian is positioned just before the transition to formula cars.

The strategy foresees:

- 2026: maximum preparation and integration
- 2027: full competitive entry into FIA Formula 4

Entry occurs before the phase in which large budgets become unavoidable – and before the exponential rise in entry costs.

08

Professional and internationally deployable

Giulian operates effortlessly in an international context:

- fluent English
- professional appearance
- experience in competitive and media-sensitive environments

He is immediately deployable for international partners and platforms.

09

Entry before value recognition

Those who engage today position themselves ahead of the moment when performance and progression become publicly visible and access becomes exponentially more expensive.

This is the window in which strategic partnerships deliver the highest return.

You grow stronger together.

2026

2026 will be a remarkable year!

KARTING

In karting, I will compete in both the IAME Benelux and the IAME Euro Series. Between these race weekends, I will train intensively in KZ to further refine my speed, technique, and racecraft.

FORMULA 4

In addition to karting, I am taking important steps toward Formula 4. This includes several trips to Spain, where I will test both in the simulator and on the track. Every test, every lap, and every data analysis is an essential part of my development process.

It will be a demanding preparation year, in which I will fully commit myself both mentally and physically.

SIM RACING

In addition, I am starting a new chapter in sim racing: on iRacing, I am joining MAG Sim Racing, a high-level sim team where focus, precision, and performance are at the core.

2026 will be intense. But above all, it is a year that I approach with tremendous motivation and enthusiasm.
